Rapide Cuisine® Built-In High-Powered/Heavy-Duty Induction Ranges

Models: IRNG-PB1-30, -36

Hatco's Rapide Cuisine® Built-In High-Powered/Heavy-Duty Induction Range offers industry-leading features and true back-of-house power in a commercial kitchen proof package.

The unit can be mounted flush or near flush with an optional trim ring. It features our Magnetic Power System (MPS) to deliver the highest power in its class! It has User Programmable Presets (UPP) for repeat menu items and a food temperature probe for more accurate cooking, plus a timer, high resolution color display and convenient power and temperature modes.

Standard features:

- Four surface temperature sensors offer the most accurate control in its class
- Culinary equivalent of up to 31,000 BTUs gas
- High resolution TFT (thin film transistor) display instantly advises the operator of precise power (1 to 100), temperature (°F or °C in one degree increments) and time control (30 seconds to 10 hours)
- Programmable mode so the operator can create preset programs for consistent cooking cycles
- Includes a grease filter and conformal-coated boards
- Easy to use color-coded selectable functions
- Large adaptive control for precise, fine control (slow turns) to spanning the full range in a single twist (fast turns)
- Pan Sense Technology (PST) activates the unit only when a suitable pan is placed on top
- Patterned, glass-ceramic top that is durable, easy to clean and helps scratches from heavy use become less noticeable
- Easy to clean, fully-sealed top stops grease or moisture from penetrating the unit, even if the top gets broken
- Automatic shut-off to prevent overheating
- Withstands high ambient kitchen temperatures (up to 124°F/51°C)
- USB port for downloading updates or adding Modes from our website
- Includes a remote control panel and cord
- 71" (1800 mm) cord with plug

Accessory (available for purchase at any time)

- Trim Ring* in Stainless Steel (holds unit nearly flush on a stainless steel counter [TRIM-PB1-36])

**For use where chair-step routing of the countertop material is not possible, but a flush-mounted look is desired.*
